

# **Malaysian Physiotherapy Journal**

*Official journal of the Malaysian Physiotherapy Association*

## **About the Journal**

Malaysian Physiotherapy Journal (MPJ) is a peer-reviewed journal published annually by the Malaysian Physiotherapy Association. MPJ aims to publish original research, meta-analysis and review papers, single case studies or case series, physiotherapy education reports, reports from scientific conferences and professional training sessions, letter to editors and commentaries concerning physiotherapeutic approaches or interventions which has significant implications to physiotherapy and rehabilitation practices and development locally and worldwide.

The mission of MPJ is to provide free access to the articles for the students, academicians and clinicians in various areas of physiotherapy and rehabilitation, and to facilitate the growth of evidenced-based practice among the rehabilitation professionals. MPJ strive to become among the recognised journals for publishing good quality research, particularly in physiotherapy.

## **Scope**

MPJ accepts papers from all areas of physiotherapy and rehabilitation disciplines which demonstrate sound methodological quality. The topics of interest include but are not limited to: Anatomical & Physiological Aspects Relevant to Rehabilitation, Biomechanics, Exercise Physiology, Fitness Training, Physiotherapy and Rehabilitation Process & Outcomes, Musculoskeletal Physiotherapy, Sports Physiotherapy, Neurology/Cardiovascular/Pulmonary/Geriatric/Paediatrics Rehabilitation, Community-based Rehabilitation, Physiotherapy in Women's and Men's Health, Rare or special conditions in Rehabilitation, and Physiotherapy Education. Rehabilitation professionals and researchers working in these fields of practice are welcomed to submit their papers.
